Filmwerkstatt Münster

As Germany's first film festival of its kind, the LITFILMS Literature Film Festival Münster is dedicated to the diverse cinematic adaptations of literary texts.

LITFILMS promotes & challenges discourse on the conditions and possibilities of films based on literature as well as film literature and offers a platform especially to artistically ambitious formats.

Call for Residency 2022

Period:

Three months, between June to September inclusive

Location:

One part each in the city of Münster and in the country around Münster

Remuneration:

1.500 € monthly plus accommodation, workplace and travel expenses

Residency Programme:

We will bring together a writer and a filmmaker for a period of three months to explore the „turning points“ of literature and film in an artistic cooperation and let their research and observations create something unique – an artistic work that moves in the in-between space of both art forms.

The work does not have to be completed in its entirety during the residency period, but should at least be presented and discussed as a work in progress in a larger setting at the end of the festival (early October 2022).

Residents will receive artistic freedom as well as organizational and technical support from the festival and the Filmwerkstatt Münster for their work(s).

They are expected to mainly work in the area yet full-time presence is not required. In addition to their own work, they are offered to co-curate parts of the festival to establish a link between their work and the festival program.

There is no age limit.

However, the training or studies should have been completed
Tandem applications are also possible.

Call for Residency 2022

The application can be informal and should have the following contents:

- Curriculum vitae
- Artistic profile with publications or filmography
- A short motivation statement

Please send the application by e-mail only to:
info@filmfestival-muenster.de

Application deadline:
January 31st, 2022
